SG Series

Break the traditional design, foot rods' length are same

- Shrink package volume, save storage space and reduce transportation costs.
- Feet of equal length have the same bearing capacity and more stable than traditional ones.
- It has a small footprint when unfolded and can be placed in a cramped space
- With hold-support function, it is eligible for all kinds of acoustic guitars and electric guitars

UKULELE STAND**

Adjustable height:	400-550mm
Material:	iron, plastic
Inner box:	125x90x315mm (1PCS)
outer box:	385x270x335mm (6PCS)
Weight:	0.45kg

Packaging

**DG036-3LP**

Color	black
Material	steel
Inner box	165*115*685mm
Master carton	250*180*715mm(2pcs)
Weight	3.6kg

Screw connections between components; high density air conditioning sleeve in contact with the guitar. Used to support the display of up to three guitar instruments.

Packaging

**DG036-5LP**

Color	black
Material	steel
Inner box	180*115*695mm
Master carton	250*200*725mm(2pcs)
Weight	4.6kg

Screw connections between components; high density air conditioning sleeve in contact with the guitar. Used to support the display of up to five guitar instruments.

**Introduction:**

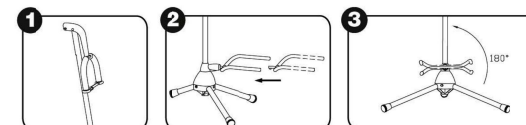

The ergonomic design surpasses traditional way. Unique, simple, practical, compact, stable guitar stand with premium material;

Features:

- Dual-block-locking mechanism between feet and mast tube to reinforce stability. Move one foot to move the mast tube up and down; better than tradition locking;
- The bent tube and yoke can be assembled or disassembled quickly to save packing space and transportation cost.
- Elegant contour;

SG718 Guitar Stand**Specification:**

Height:550-800mm
Material:Steel
Inner box:170x120x450mm (1pcs)
Master Carton:385x360x475mm (6pcs)
Weight:0.8kg(1pcs)

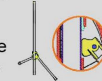

Insert the fork in

Insert the fork in, then rotate 180 degree Dismantling: put the pin into the square hole, and take out the bent tube.

Mechanism Diagram

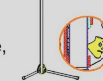

fold and lock status

During folding the feet and locking status, the fixing block presses the mast tube tightly.

unlock status

During unlocking status, the fixing block separates from the mast tube, so the mast tube can be moved freely.

unfold and lock status

During unfolding the feet and locking status, the fixing block presses the mast tube tightly.
