

# PT30

## Portable folding intelligent podium

PT30 is a foldable portable smart podium that can be used at a 60° angle when unfolded for ease of use. Built-in 6.5" full-range active coaxial speaker, DSP digital audio processor and gooseneck microphone, clear sound quality. The podium is equipped with a 5-inch touch screen, which facilitates the control of the audio system and the timing of the speech.

Application areas: temporary meeting places, outdoor activities, outdoor meetings, press conferences, exhibitions, and field activities for the military.

### ■ Portable power supply system:

Built-in high-capacity rechargeable battery for long-term use, no cables required, completely independent of the power grid. At the same time, it supports mobile power supply and direct power input, flexibly adapting to different scenarios.

### ■ High-quality audio system:

Equipped with 6.5-inch full-range active coaxial speakers, the sound is clear, bright, thick and full, with high power and low distortion.

Equipped with DSP digital audio processor, dual-core high-speed floating-point CPU, and supports the latest feedback cancellation (AFC) algorithm, ensuring pure sound without interference.

Equipped with two 480mm cardioid single-directional gooseneck microphones, it accurately captures the speaker's voice.

Support 2 channels x 10 optional frequency points UHF wireless microphone, and can be connected to wired microphone to meet diversified use requirements.

### ■ Intelligent control and display:

Equipped with a 5-inch touch screen, it can easily control audio systems, speech timing, and other functions, making operation convenient and intuitive

### ■ Practical storage design:

The lower section of the lectern features a lockable 420mm x 150mm x 160mm storage cabinet, providing convenient storage for microphones and other accessories, enhancing security, and helping maintain a clean surface.

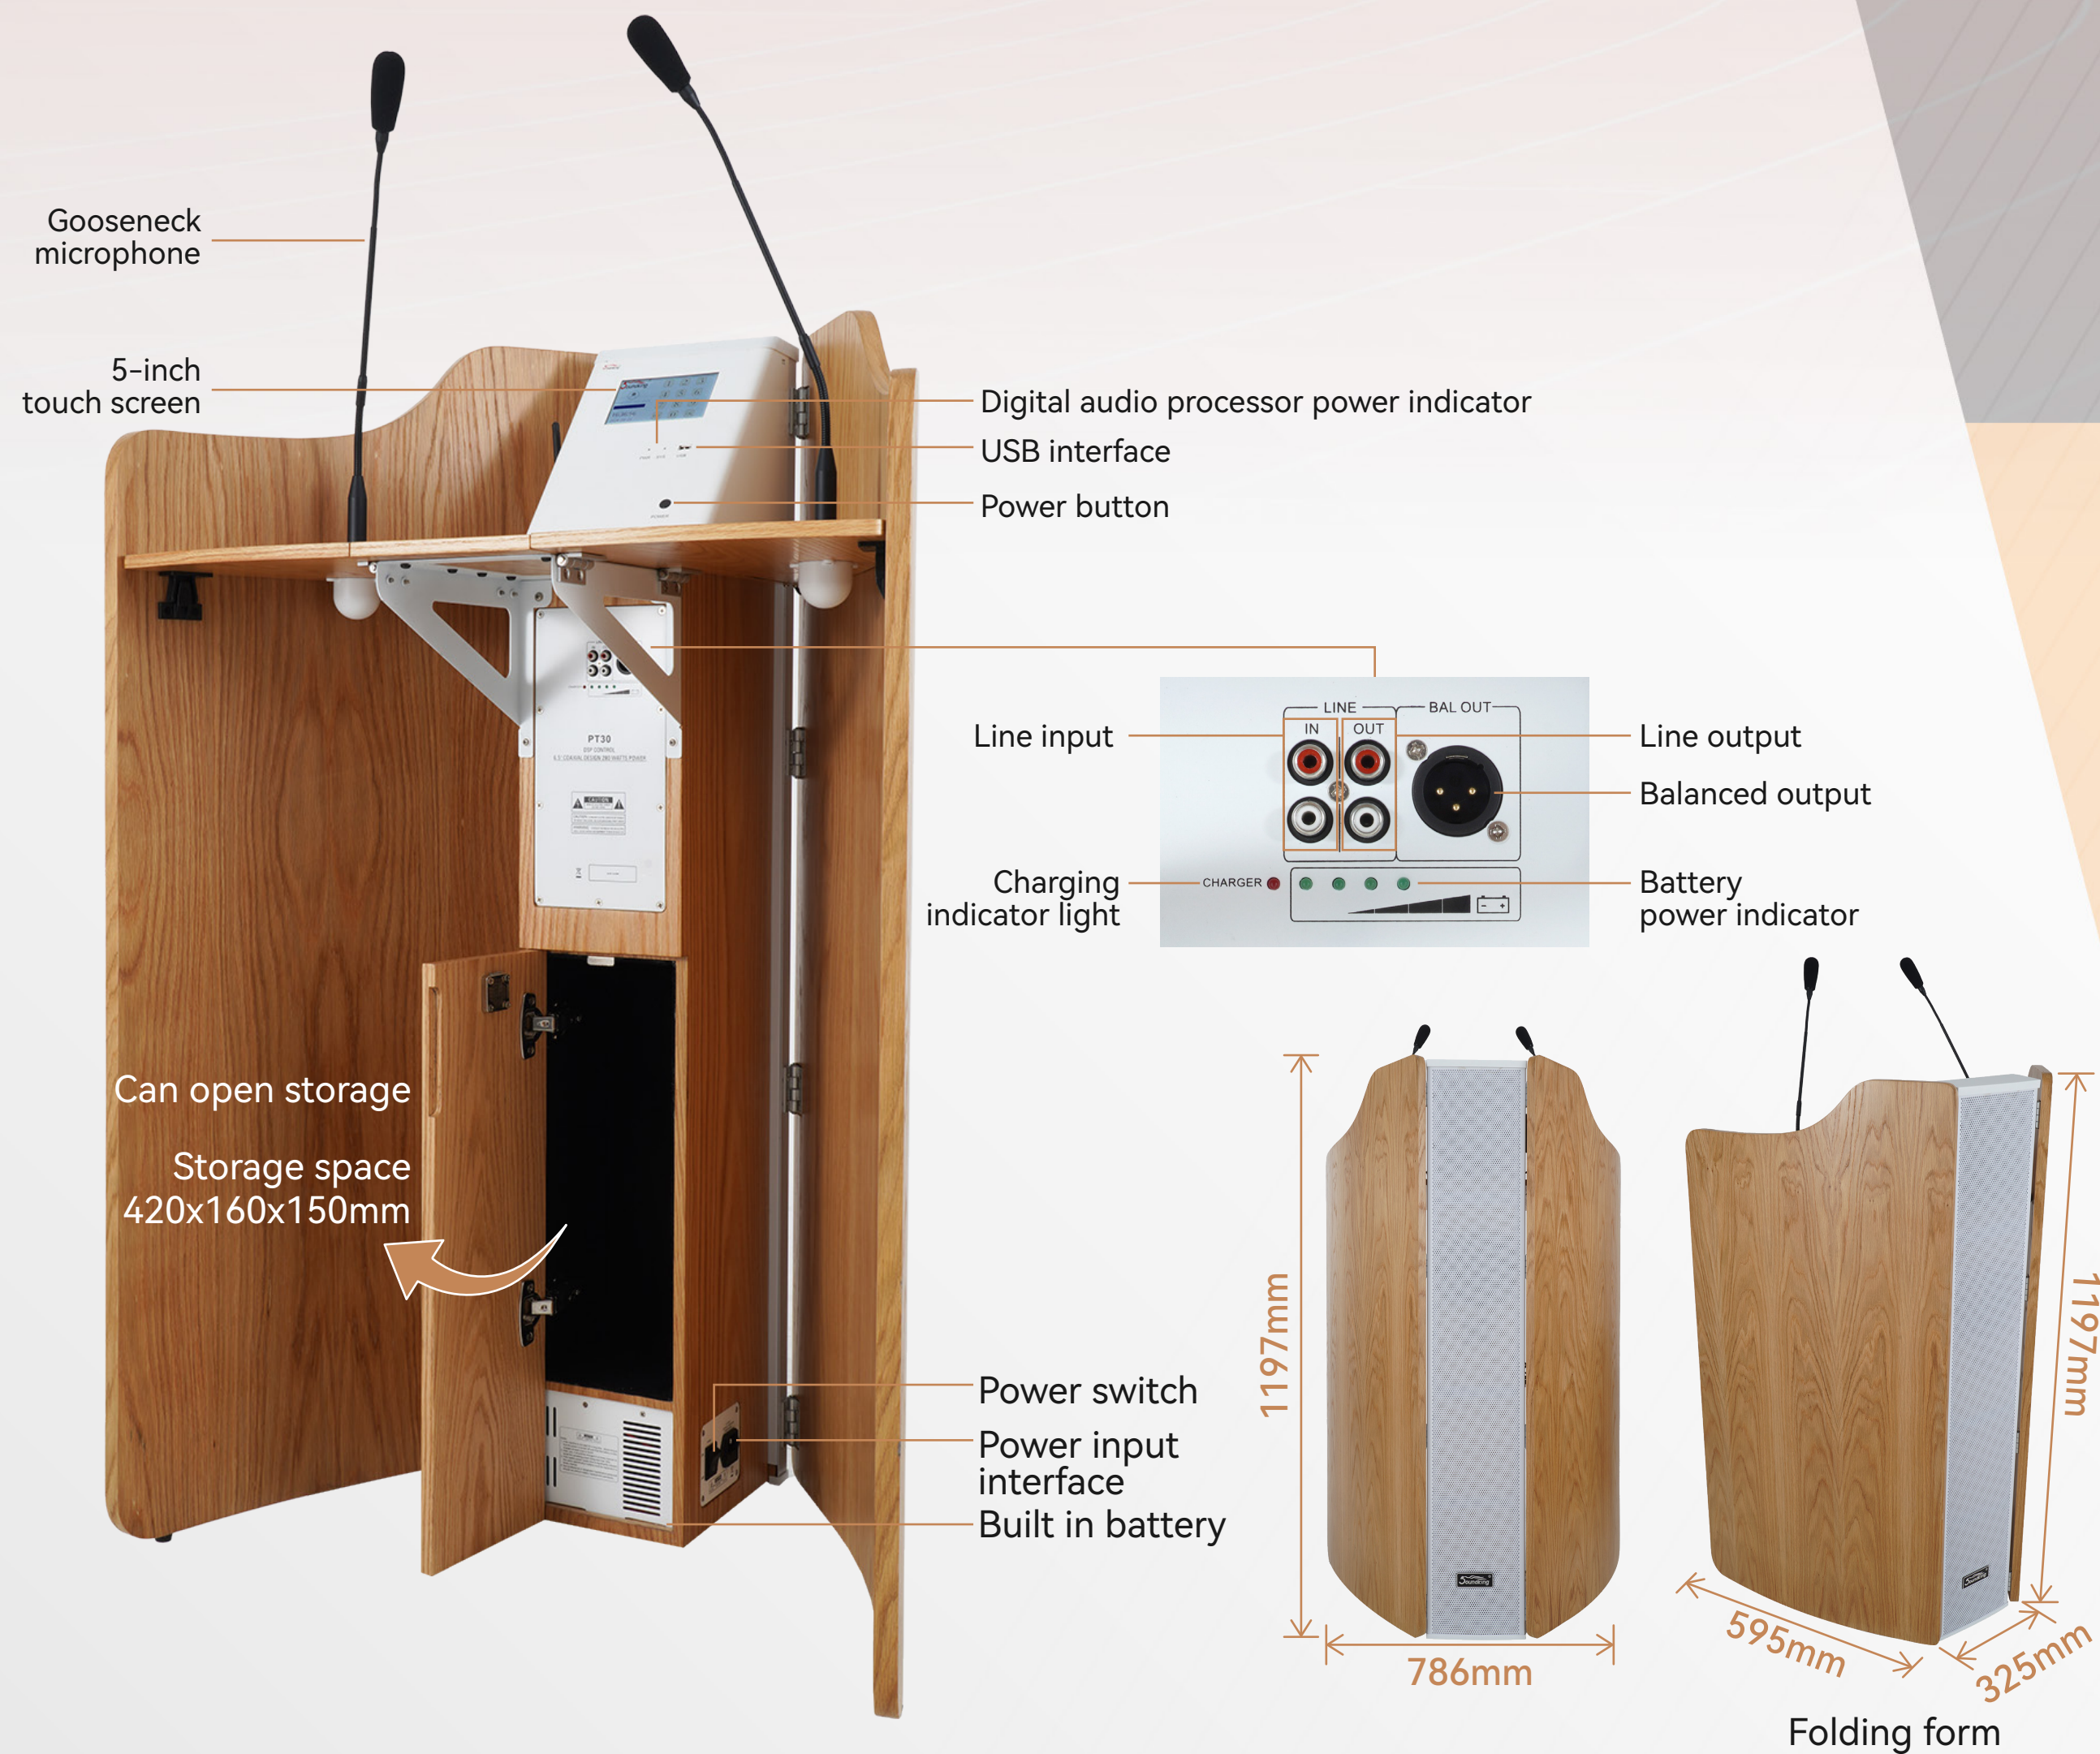

### ■ Rugged and durable structure:

The net weight of the platform is about 40kg, and the load-bearing capacity of the tabletop is ≤ 35kg, which is stable and reliable.

Folding size: 1197x595x325mm, unfolded size: 1197x572x786mm, easy to transport and store.
